

Part Time Physiotherapist Position

Busy St. Albert location.

Your face here!

We are a PT/MT clinic with a well established referral base in St. Albert. We require a staff physiotherapist who will treat all ages in a team environment. We see general orthopaedics, MVAs, sports injuries and we have a dedicated IMS treatment program, vestibular rehab program and Women's Health/ Incontinence Program. Although we have a CRP contract, we rely more heavily on private business and we do not provide treatment to WCB injuries. See our website for further info www.csaphysio.ca

We are looking for a keen PT who can build and handle their own caseload and has already developed a reputation for quality care. Although this is posted as part time, it has the potential to evolve into a permanent full time position.
